HELENA IS DRIVEN UPON ROCKS AND CREW SAVED
Scituate, Mass., Jan. 29.—Driving in through a blinding northeast snowstorm at daybreak today, the three masted schooner Helena, lumber laden from Savannah to Portland, Maine, brought up on the rocky beach on the south shore of Massachusetts bay. The life saving station had no difficulty in firing a line across the rigging and pulling the Helena's eight men to land.

DAMAGE DONE BY WIND AND SLEET CAN SCARCELY BE ESTIMATED

Many Cities and Towns Are Practically Isolated and Train Service Remains Demoralized—Storm in South Most Severe in Recent Years—Hundreds of Thousands of Dollars of Loss From Fire and Havoc Caused by High Winds

Chicago, Jan. 30.—Chicago and the middle west arose today with the assurance that the worst storm which devastated this section of this country yesterday was over and that cooler weather, while the east inherited the blizzard.

The damage done by wind and sleet can scarcely be estimated. Many cities and towns are still practically isolated and train service remains demoralized. In the Dakotas and Nebraska, hope is held out for immediate improvement in conditions. In the south, the storm was the most severe in recent years and the story of wrecked buildings, interruption to wire communication and general distress is almost a duplicate of that sent from the north and northwest. Railroad traffic is also badly delayed in Arkansas, Oklahoma, Mississippi and portions of Texas. Fire and havoc from high winds have resulted in loss of several hundred thousands of dollars.

SEVERE BLIZZARD HAS SPENT ITS FORCE

TELEGRAPH COMMUNICATION IN SOUTHWEST BEING RESTORED.

Temperature Remains at Lowest Point, Wichita Registering 8 Above Zero, Amarillo, 12, Fort Worth, 26.

Kansas City, Jan. 30.—After being securely wrapped for the past twenty-four hours in the grasp of the most severe blizzard on record, reports today from the southwest show that the storm had spent its force and that conditions were improving. The temperature, however, remained at its lowest point, in many places a drop of from forty to sixty degrees having been experienced since the beginning of the storm. Telegraph and telephone communication has been almost completely cut off for twenty-four hours, but is slowly being restored today. Reports from Missouri, Kansas, Oklahoma, Texas and Arkansas show clear but colder weather. The following temperatures were reported today: Wichita, 8 above; Oklahoma City, 16 above; Amarillo, Texas, 12 above; Fort Worth, 26 above.

Locally, the wind, which for thirty minutes last night attained a hurricane velocity of eighty miles an hour, and which had been blowing at the rate of seventy miles for twenty-four hours, dropped to the almost usual twenty miles. But the temperature here today registered 1 above zero, a drop of sixty degrees in thirty-two hours.

TRAFFIC SUSPENDED AT BENTON HARBOR, MICH.

Benton Harbor, Mich., Jan. 30.—As a result of the blizzard, traffic is almost entirely suspended in this section of Michigan. Snow drifts in some instances are twenty feet deep.

KENTUCKY IN CLUTCH OF A GENUINE BLIZZARD

Louisville, Jan. 30.—Kentucky and other parts of the south today are in the clutch of a genuine blizzard. Snow fell throughout Kentucky and sections of Tennessee nearly all night and

FIRE LOSS CAUSED BY HIGH WINDS IS GREAT

DAMAGE IN TEXAS AND OKLAHOMA AGGREGATES \$700,000.

Residences and Grain Elevator Burned, Fifty Dericks in Glenn Oil Pool, Near Tulsa, Levelled by Wind.

Dallas, Jan. 30.—Damage from fire and havoc wrought from high winds, estimated at about \$700,000, was caused during the last two days in Texas and Oklahoma.

In Dallas alone in two days there were twenty-one alarms. A number of residences were burned with losses of \$20,000.

Four residences burned yesterday at Grand Saline, Okla., with a quantity of corn in cars, burned, causing a loss of about \$25,000. In the Glenn Oil Pool, near Tulsa, the damage is probably \$50,000 by reason of the wind having leveled many dericks. Fifty dericks are down in the oil field near Kiefer, Okla.

In the Texas panhandle, the sandstorm was terrific. The gale has been followed by a cold wave, which embraces the entire southwestern country from Kansas to Southern Texas and into New Mexico.

CENTER OF STORM HAS REACHED NEW YORK

HEAVY FALL OF SNOW FILLS THE STREETS.

Transportation Is Delayed—Municipal Lodging House Shelters Forty Women and Children.

New York, Jan. 30.—The center of the western blizzard reached this city today. Accompanied by a high west wind, a heavy fall of wet snow succeeded a rainfall throughout last night, filled the streets with slush which threatened to delay all city transportation except the subway.

Frequent accidents to pedestrians were reported. With the front winds of the street cars thickly coated, motormen were unable to see pedestrians dodging across the street crossings and snow on the track delayed the sound of the approaching cars.

Among the hundreds who sought shelter last night in the municipal lodging houses were about forty women and children. Most of the men were put to work clearing snow. Fire which broke out in a stable on Montrose street in Brooklyn, spread so rapidly that forty families were turned into the street. An adjoining tenement was soon in flames and the tenants in it had narrow escapes.

LINES OF COLORADO RAILROADS BLOCKED

DURANGO TRAIN, SNOWBOUND THREE DAYS, RELEASED.

Blockade on Telluride Line May Not Be Broken For Another Week.

Denver, Jan. 30.—Snow from seven to ten feet on the level, and drifts many feet deeper, are still blocking many of the lines of Colorado railroads, but most of the passenger trains, stuck in drifts at remote sidings or small stations, have been detached and the passengers are taken care of. The Colorado & Southern passenger train, which has been marooned near Jefferson for two days, is still in the snow, but the passengers have been brought to the village. The Denver & Rio Grande broke its three days' blockade on Cumbres Pass yesterday and released the snowbound Durango passenger train. The Rio

Grande Southern road, however, is still badly blocked in the vicinity of Durango, and yesterday the big rotary snow was broken. The line to Telluride has been blocked for nearly a week and it is probable will be another week before the road is open. The line to Silverton was opened last night after being blocked ten days. Some of the snow slides cut through were from thirty to forty feet deep. Trainloads of coal and supplies are being rushed to Silverton which city has been close to famine.

The high line, or Leadville branch of the Colorado & Southern, is having much trouble with huge drifts and two passenger trains are snowbound at Boreas Station on top of the range. All the passengers on the snowbound passenger train from Denver which got stuck near Como have been brought into that town and are being cared for. The weather in the mountains has cleared, but it is still intensely cold.

CHURCH LIFTED FROM ITS FOUNDATIONS

Hot Springs, Jan. 30.—The Third Baptist church was lifted from its foundations yesterday by the heavy wind and carried one block to the Central Avenue entrance of the Oaklawn race track.

Several plate glass windows were broken either by the pressure of the wind or by flying missiles.

BUSINESS IN OKLAHOMA PRACTICALLY SUSPENDED

Muskogee, Jan. 30.—Great damage has been done throughout Oklahoma by the terrific windstorm that has swept the state the last twenty-four hours. Business has been practically suspended and people have stayed indoors. Thousands have been panicked by the fear of injury or death from falling wire poles, endless numbers of which have been leveled to the ground by the unprecedented gale.

PROPERTY LOSS BY FIRE IN OKLAHOMA CITY, \$200,000

Oklahoma City, Jan. 30.—Fanned by a sixty-four mile wind, seven fires in as many sections of this city yesterday destroyed property valued at \$200,000.

Shortly before noon the building occupied by the Oklahoma was gutted, causing a loss of about \$100,000. Several hours later the warehouse of the J. C. Case company was destroyed. Loss about \$100,000.

ZERO AT MINNEDOSA, MINN.

St. Paul, Jan. 30.—The coldest point in the northwest today was at Minnedosa, where it was thirty degrees below zero. At Moorhead, Minn., it was 18 below. In the extreme north, the temperatures are moderating, it being zero at Hulse, Minn., 10 below at Williston, N. D., and 4 below at Calgary and Edmonton, Alberta. The wind is moderating.

CONTROVERSY OVER ROADS

Atty. Gen. Gives Opinion As to Private and Dedicated Thoroughfares

Attorney General Barnes is in receipt of a query from County Attorney R. W. King of Millard county, relative to operation of roads. "Roadways have been made through land owned by individuals, these roads are sometimes long lanes, and some have turned out to be streets in some of our little towns. Now the question is this, the county wants to fix and turnpike some of these roads, but the owners of the land through which the roads run, and that the county has only a right to travel over them, but not to disturb the soil. It is true that these individuals pay taxes on the land over which the roads run, and of course hold the titles to the land. Now we want to fix these roads and make them better for the public. They refuse to let us. Have we the right to go ahead, notwithstanding their protest?"

The attorney says: "The question to determine is whether there has been a dedication to the public of these roads. Section 1115 of the compiled laws of Utah, provides as follows: "When deemed dedicated, a highway shall be deemed to have been dedicated and abandoned to the use of the public when it has been continuously used as a public thoroughfare for a period of 10 years."

Further, the local authorities are evidence tending to defeat the presumption of dedication, but the mere payment of taxes will not rebut a presumption arising from the conduct and circumstances when they are such as to clearly indicate an intent to dedicate.

"If there has been a dedication, and from your statement I am inclined to believe there has been, then I am satisfied that, while the fee may remain in the dedicators, yet the county commissioners have such control over such roads as to permit them to proceed to turnpike and fix the same in so far as may be necessary for the safe and convenient use of such roads by the public."

BULGARIA'S ATTITUDE IS UNCOMPROMISING

Constantinople, Jan. 30.—According to advice received here, the Bulgarian government has adopted an uncompromising attitude on the question of indemnity to be paid Turkey as a result of the Bulgarian declaration of independence last October.

There can be no increase. It is declared, on the present offer of \$16,000,000, and it is further intimated that should a settlement on that basis be delayed much longer, Bulgaria will reconsider her position. The embassies are striving hard to bring the disputants together.

WARRANT USED TO BRING SON TO HIS DYING MOTHER

Chicago, Jan. 30.—A warrant charging larceny, but it really designed to bring B. F. Morris, a young attorney of New York, to the bedside of his dying mother, was sworn out here today.

"Morris will not be prosecuted," explained George H. Folwell, another New York lawyer, who made the application to the court. "He is charged with taking \$4,000 from his mother, but she is believed to be dying and her one desire is to see her boy before it is too late."

"Is a warrant necessary under the circumstances?" asked the judge. "I am sure it is. He would be too ashamed to visit her. We must make him," answered Mr. Folwell.

JAPANESE NOT TO BE FAVORED

MASTER MECHANIC MALONE WILL EMPLOY WHITES.

When There Is Preference to be Shown, the Men of Long-Time Service Will Be Selected.

Replying to inquiries from a Standard reporter, Master Mechanic D. J. Malone of the Southern Pacific machine shops at Ogden said he had thoroughly investigated recent rumors regarding the discharge of white cleaners and the employment of Japs in their places, and nothing of that kind would be endorsed or even tolerated for an instant by the company. He would take the matter in his own hands, when it came to racial discrimination of any character, and the interests of the white workmen would be promoted so far as possible, in the department over which he has authority.

Recently several car cleaners had been laid off owing to a reduction in the force of that department. Among others who were given their time were several Jap car cleaners. He had been advised of the fact and endorsed the action of the foreman in laying the men off, including the Japs, and there was no purpose on the part of those in authority to discharge white men, now employed as car cleaners, in order to give employment to Japs who may have protested against being laid off when the force was recently reduced.

"So far as possible," continued Mr. Malone, "white men with families at Ogden are given the preference in all work of this character, and that condition will obtain in the future as in the past. I will give the matter my personal attention in the future, and when men are to be laid off in any department, owing to a reduction in the force, those who have been in the service of the company the longest will be retained, and those who are last on the payroll will be given a vacation."

"Now that the matter has been explained fully, there is no cause for further criticism on the subject, and the public generally need not be worried by the rumor that Japs will be made against anyone by which the Japs will be favored."

LAUGHIN'.

Sing us something full of laughter: Tune your harp, and twang the strings Till your glad voice, chirping after, Mates the song the robin sings; Loose your lips and let them flutter Like the wings of a warbling vireo. Though they naught but laughter utter, Laugh, and we'll not miss the words.

Sing in ringing tones that mingle In a melody that lingers long; Joyous echoes in a jingle Sweeter than the minstrel sings; Sing of winter, spring or summer, Clang of war, or low of herds; Trill of cricket, roll of drummer— Laugh, and we'll not miss the words.

Like the hissing laughter glancing, From the meadow brooks and springs, Or the river's ripples dancing To the tune the current sings, Sing of joy, and the hereafter, Let your glad song, like the birds', Overflow with limpid laughter— Laugh, and we'll not miss the words. —James Whitcomb Riley.

PROHIBITION WILL BE FOUGHT IN NORWAY

Christiania, Sunday, Jan. 17.—There has been widely published throughout Norway the manifesto of an organization formed here by deputies from all parts of the country, to combat the prohibition movement. It contains the signatures of 636 prominent men. Its program is to protect liberty, to oppose the misuse of intoxicating drinks, to erect asylums for drunkards and to secure the knowledge of sound principles of living, of health and hygiene. The new organization will not be affected with any political party. Its motto is "Liberty and civilization against prohibition and co-operation." A large portion of the press hails it with enthusiasm.

UNKNOWN STEAMER FOUNDERS IN STORM

Elizabeth City, N. C., Jan. 29.—The diamond shaped lightship reports that an unknown steamer or foundered during the storm today, three miles northwest of the lightship. No boats from the steamer or wreckage is to be seen and the fate of the crew is not known. The wind is blowing from the southwest at the rate of 45 miles an hour and is running high.

NATURALIST OF WORLD-WIDE FAME

Santa Barbara, Cal., Jan. 30.—Dr. Lorenzo G. Yates, aged 77, a naturalist of world-wide fame, died here today of dropsy, after an illness of several weeks. He was born in England and came to the United States in 1853. He was a specialist of ferns, general botany, paleontology, North American Indians and conchology. He catalogued collections and prepared guides in the Golden Gate Park museum in San Francisco.

SELECTION OF JURORS STILL GOES ON

Nashville, Jan. 29.—The tenth day of the trial of the Coopers and John Sharpe for the murder of Former Senator Carmack, opened today with less than a hundred of the 300 talesmen summoned in court. The jury box now contains nine men, one of whom it is considered certain, will be released because of poor health.

The list was quickly exhausted without securing a juror, and the new venire of 500 was ordered to report on Tuesday morning.

Judge Hart then called Juror Whitworth at the request of the state. Attorney General McCan asked him concerning his health. The juror said he was feeling pretty well. The state insisted that he remain on the jury. Judge Hart said:

"I don't want to take any chances of a mistrial, because of the illness of a juror. A man who has an organic disease is more liable to be ill than another man."

A GENUINE DIAMOND

We want you to show it to your friends and take orders for us, as it sells itself—sells at sight—and makes 100% PROFIT 100% for you, absolutely without effort on your part.

THE KING OF DIAMONDS HAS LICENSE TAKEN AWAY.

BURLINGTON, Ia., Nov. 14.—For some time past newspapers in Iowa cities have been reporting the operations of a man whom they called "The King of Diamonds." It appears that there was nothing criminal in his operations, which consisted in selling "phony" diamonds, but his methods of securing were not exactly according to the rules. He usually dropped into a jewelry store and told of securing such and such a representative of the house on the road and selling him a diamond, to be delivered at the place the same thing. Thus he worked up an interest and usually secured in selling some of his phony diamonds. Mr. Jack of Diamonds dropped into City Auditor Norton's office one morning and secured a license to sell his wares. He had only been out a short time, however, until Chief of Police Hilt learned of him. Calling in the peddler, he relieved him of his license and gave him back the money he had paid for it. As the man had committed no crime he was released. He was bitter against the newspapers for injuring his business.

MAN'S DIVORCED WIFE IS STILL HIS WIFE

San Diego, Cal., Jan. 30.—In a decision received here today from the court of appeals, that tribunal holds that a man's divorced wife is still his wife, although she has remarried and the wife of another man. The decision was rendered in the appealed will case of Frank Abbott, who was left \$50,000 by his uncle, Jacob Gruendike, the will providing that a third go to Abbott's wife and a third to his children. Abbott, being divorced, contested this clause on the ground that he had no wife, she having remarried afterwards. The lower court decided his divorced wife was still his wife and entitled to the bequest and the court of appeals sustained the lower court.

SUMMONS.

In the District Court of Weber County, State of Utah.
Mary L. Wilson, Plaintiff, vs.
Charles E. Wilson, Defendant.—Summons.

The State of Utah to the said Defendant: You are hereby summoned to appear within twenty days after service of this summons upon you, if served within the County in which this action is brought, otherwise within thirty days after service, and defend the above entitled action; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the Clerk of said Court. This action is brought to recover a judgment dissolving the bonds of matrimony heretofore existing between you and the plaintiff.

N. J. HARRIS,
Plaintiff's Attorney.

P. O. Address: First National Bank Building, Ogden, Utah.
